PATENT AWARDS

May 2016 – Patent # 9,271,953 issued by the U.S. Patent and Trademark Office

Abstract: The present invention includes compositions and methods for treating certain conditions, at least one of autonomic dysfunctions or vascular diseases.

Properties: When ingredients are combined precisely as described, effective vagus nerve stimulation occurs, restoring parasympathetic nervous system function despite any genetic abnormalities in the pathway for making acetylcholine.

March 2019: Patent # 10,238,673 B2 issued by the U.S. Patent and Trademark Office

Abstract: The present inventions includes compositions and methods for treating certain conditions such as dry eye and dry mouth.

Properties: When ingredients are combined precisely as described, basal tear and saliva production are restored via stimulation of the lacrimal nerve to produce tears, and stimulation of the vagus nerve to help control inflammation that causes dry eyes.

October 2020: Patent # CA 2,940,871 issued by the Canadian Intellectual Property Office

Abstract: Methods and Compositions for Correction of Organ Dysfunction

Properties: The present invention relates in general to the field of prevention and treatment of conditions associated with autonomic dysfunction and their commonly found co-morbid conditions including vascular disorders, immunological disorders and organ dysfunction and more particularly, to methods and composition for the prevention and treatment of the same.

CLINICAL TRIALS – GENETIC DISEASE INVESTIGATORS, LLC

Head Circumference Growth in Children with Ehlers-Danlos Syndrome Who Develop Dysautonomia Later in Life, NCT#01367977

Head Circumference Growth in Children Who Develop Multiple Sclerosis Later in Life, NCT#01377805

Vascular Fundus Changes in Patients with High Probability Of Chronic Cerebrospinal Venous Insufficiency, NCT#01356134

HONORS

Nominee – Tribute to Champions of Hope, Global Genes Allies in Rare Disease

Albert Schweitzer Award, The University of Texas at Austin

Foundation of Excellence Award, Texas Association of Optometrists

Ave Custos Oculi Award – Outstanding Achievement in Contact Lens Studies, University of Houston College of Optometry

Excellence in Optics Award, University of Houston College of Optometry

Excellence in Pathology Award, University of Houston College of Optometry

Barnes-Hind Hydrocurve Contact Lens Award, University of Houston College of Optometry

Phi Beta Kappa, Psi Chi, Phi Kappa Phi, Beta Beta Beta, Honor fraternities – The University of Texas at Austin

Beta Sigma Kappa (honor fraternity), University of Houston College of Optometry
